

# Stewardship of our Facilities

***Here are some ways to live out your faith through stewardship here at Spirit of Christ:***

- ♥ When arriving on our property, if you see some trash, please pick it up.
- ♥ If you see a weed, please pick it and dispose of it.
- ♥ If you see someone abusing our landscaped areas or building, please ask them to respect it or call the authorities.
- ♥ If you see anything damaged, please notify the Maintenance Office.
- ♥ If there is ice on the walks, spread some ice melt.
- ♥ If you see debris in the building, please dispose of it.
- ♥ While using the facilities and materials from Spirit of Christ, please use only what you need and return the unused portions back into our stock.
- ♥ When requesting a space to use, please ask for the smallest possible room for your group. Here are some practical reasons why; think about this-
  - The average U.S. home has 48 light bulbs inside and outside;
  - Our Sanctuary has 404
  - Our Spirit Center has 575
  - Our St. John XXIII Center has 78
  - Our upper East kitchen has 47

Who would turn on every light bulb in their house, sit there for two hours then walk out and leave them ON? NO ONE. So please practice that here. Our average electric and gas utility bill is \$5,700 per month...If you leave a room- you turn out the lights, even for a few minutes.

- ♥ **PUSH YOUR CHAIRS IN.** The maintenance staff, who are the people setting up your room, take pride in giving you the cleanest, neatest set up they can. Please respect that and respect the group who will follow you.
- ♥ You must leave the space as you found it. Put things away or back in place. **NEATNESS COUNTS!**

***All who use our facilities are blessed to do so!  
Let's pay it forward by helping maintain the space you use and be accountable to your brothers and sisters in Christ.***
